 WHY IS YOUR PET HERE TODAY: _____

AUTHORIZATION OF SERVICES

If your pet is here for an anesthetic procedure, bloodwork is required for all animals over 5 years of age. It is also recommended that bloodwork be performed before any anesthetic procedure, regardless of the animal's age, to help identify any pre-existing medical conditions and help ensure that your animal is healthy for the procedure.
PLEASE INDICATE IF YOU WOULD LIKE PRE-ANESTHETIC BLOODWORK (required if over 5 years of age): YES / NO
 *Bloodwork is an additional \$92 fee
 **I consent to the administration of anesthesia as necessary. I understand that procedures requiring anesthesia are associated with a certain amount of risk. I am aware that North Phoenix Animal Clinic is not a 24-hour facility.
 SIGNATURE OF OWNER: Cheryl, Director
PLEASE INDICATE IF YOU WOULD LIKE THE FOLLOWING TODAY:
 VACCINATIONS (please list which ones): N/A
 PAIN INJECTION (for surgery): YES / NO (\$14) MICROCHIP: (\$50) E-COLLAR: YES / NO (\$15)

DENTAL PROCEDURES

If your animal is here for a dental procedure today, then please be advised that extractions (removal of teeth) are at an extra cost. We will not remove teeth unless it is absolutely necessary. We try and estimate how many extractions an animal will need at the time of exam, but sometimes we cannot tell which teeth are diseased until your animal is under anesthesia. We have dental radiographs that are used to assist us in deciding the health of your animal's teeth. Please understand that it is not always possible to call owners in the middle of an anesthetic procedure, so by signing below you authorize North Phoenix Animal Clinic to extract all of the teeth that the doctor feels is necessary. We will do our best to give an accurate estimate range of how much the dental procedure will cost, but sometimes there will be additional costs (such as medications to go home) along with extractions. We also recommend supplemental fluids (either IV or subcutaneous) for all dental procedures. There is an additional charge for this.
 SIGNATURE OF OWNER: Cheryl for Saving One Life Director
 WOULD YOU LIKE SUPPLEMENTAL FLUIDS GIVEN DURING ANESTHESIA: YES / NO (additional cost)
